Carbondale Area

City Clock Fund Shy $376 of Goal

By RAY RINALDI

The Committee for the Restoration of City Hall has thus far received a total of $2,624.05 in donations from city businesses and residents in their efforts to pay for repairs to the clock in the City Hall tower.

Repairs to the clock will cost approximately $3,000 and will be undertaken by the Rogers Clock Service, Harrisburg. The Committee is currently sponsoring a 50-50 raffle to help raise monies for the repairs, and students in Carbondale have responded enthusiastically to the community spirit.

Carbondale Area students plan to show a movie on Jan. 29, while Sacred Heart students are planning a fund-raiser. Proceeds from both endeavors will go towards repair of the clock.

The Committee has expressed its thanks to those residents who have responded with donations. While the first phase of the restoration will be centered on the clock, the Committee also plans to restore the City Hall building, beginning with the clock tower and the roof.

At 10 a.m. Saturday, Thomas C. Horlacher of the Scranton-based architectural firm of Palumbo and Horlacher, will inspect the City Hall building with members of the Committee. Mr. Horlacher has volunteered his services to inspect the building and compile a list of priorities for its restoration.

The Committee will conduct its next public meeting Thursday at 7:30 p.m. in council chambers.
